

For the use only of a Registered Veterinary Practitioner or a Hospital or a Laboratory or a Farm.

Miconazole Nitrate, Prednisolone Acetate &  
Polymyxin B Sulfate Ear Drops

## AusKO™ Ear Drops

Effective treatment for  
**OTITIS EXTERNA**

### COMPOSITION:

Each ml contains:

Miconazole Nitrate BP ..... 23 mg  
Prednisolone Acetate USP ..... 5 mg  
Polymyxin B Sulfate USP ..... 5500 IU  
Excipients ..... q.s.

**CATEGORY:** Anti-Fungal, Anti-Inflammatory and Anti-bacterial.  
**For Otic Use in Dogs Only.**

### INDICATIONS:

AusKO Ear Drops is indicated for the treatment of canine otitis externa associated with susceptible strains of yeast (*Malassezia pachydermatis*) and bacteria (*Staphylococcus pseudintermedius*).

### DOSAGE AND ADMINISTRATION:

The external ear should be thoroughly cleaned and dried before treatment. Verify that the eardrum is intact. Instill 5 drops of AusKO Ear Drops in the ear canal twice daily for all weights of dog.

The duration of treatment is 7 consecutive days or as directed by the Veterinarian.

Massage external ear canal gently after application to allow the preparation to penetrate to the lower part of the ear canal.

### PHARMACODYNAMIC PROPERTIES:

**Pharmacotherapeutic Group:** Otologicals corticosteroids and anti-infectives in combination.

**ATC vet code:** QS02CA01

**Miconazole Nitrate** is a synthetic imidazole derivative with antifungal activity and a potent activity against Gram-positive bacteria. Miconazole selectively inhibits the synthesis of ergosterol, which is an essential component of the membrane of yeasts and fungi.

**Prednisolone Acetate** is a glucocorticoid with strong anti-inflammatory activity which results from its reduction of the permeability of capillaries and vascular proliferation and from the inhibition of fibroblast action.

**Polymyxin B Sulfate** is a polypeptide antibiotic with bactericidal activity against Gram-negative bacteria. It binds to phospholipids in the cytoplasmic membrane, whereby the membrane permeability is disturbed. This results in lysis of the bacteria.

### WARNING & PRECAUTIONS:

Special precautions to be taken by the person administering the veterinary medicinal product to animals. Avoid contact with the product. Do not touch the dropper tip to any surface since it may contaminate the solution.

Wash hands carefully after applying the product. In case of accidental contact with the eyes, rinse with copious amounts of water.

Do not handle the product if you have known hypersensitivity against compounds in the product.

### STORAGE:

Store below 25°C in a cool and dry place.

Use the solution within one month after opening the container.

### PRESENTATION:

15ml Dropper Bottle packed in a Primary Carton along with the Pack Insert.

**VETERINARY.  
FOR ANIMAL TREATMENT ONLY.
