ANTIBIOTICS

Tylox-Gold WSP

COMPOSITION:

Each gram contains:
 Tylosin Tartrate BP (Veterinarian).....100 mg
 Doxycycline Hyclate USP.....200 mg
 Excipient.....q.s.

Tylox-Gold WSP is effective against infections caused by microorganisms susceptible to tylosin and doxycycline in calves, poultry, and pigs. It is especially indicated for the treatment of gastrointestinal and respiratory infections.

Neodox-Gold WSP

Each gram contains:

Doxycycline Hyclate BP.....100 mg
 Neomycin Sulfate BP.....100 mg

Poultry: It is recommended for the treatment of particularly complex chronic respiratory diseases, nonspecific diarrhea, blue comb, fowl cholera, dermatophilosis, colisepticemia, Salmonella pullorum, infectious synovitis and other secondary bacterial infections.

GentaDOX Gold 100/200

COMPOSITION:

Each gram of powder contains:
 Gentamicin sulfate USP..... 100 mg
 Doxycycline hyclate BP.....200 mg
 Excipientsq.s.p.

GENTA DOX Gold is indicated for the prevention and treatment of gastrointestinal and respiratory infections caused by microorganisms sensitive to doxycycline and/or gentamicin, such as Bordetella, Campylobacter, Chlamydia, E. coli, Klebsiella, Haemophilus, Mycoplasma, Pasteurella, Rickettsia, Salmonella, Staphylococcus and Streptococcus spp. in calves, sheep, goats, pigs and poultry.

Nstrong-50 / 20

Each gram contains:

Neomycin Sulphate BP50/20%w/w
 Excipients.....q.s

Neomycin 20% water-soluble powder is indicated for the prevention and treatment of bacterial enteritis in calves, sheep, goats, poultry caused by bacteria susceptible to neomycin, such as E. coli, Salmonella and Campylobacter spp.

OtcRx - 20 / 50

Each gram contains:

Oxytetracycline Hydrochloride BP...
 200/500 mg
 Excipients.....q.s.

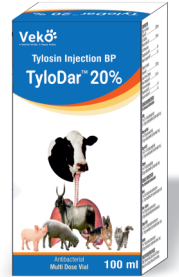

OtcRx- 50 is indicated for the prevention & treatment of Gastrointestinal and respiratory infections caused by oxytetracycline sensitive bacteria like Bordetella, Bacillus, Corynebacterium, Campylobacter, E. coli, Haemophilus, Pasteurella, Salmonella, Staphylococcus and Streptococcus spp. and Mycoplasma, Rickettsia and Chlamydia spp. in calves, goats, poultry, sheep and swine.

TyloDar 20%

Each ml contains:

Tylosin Tartrate B.P. (Vet)
 equivalent to Tylosin200 mg
 Benzyl Alcohol B.P.2%v/v (As Preservative)
 Water for Injection B.P.Q.S.

Used to treat pneumonia, hoof rot and uterine infections, and to treat acute and supra-acute cases of udder infections in cattle and sheep. Used to treat chronic respiratory diseases in poultry. Used to treat diseases of the upper respiratory tract, external ear diseases, and uterine infections in dogs and cats.

DoxyKO 50/20

Each gram contains:

Doxycycline Hyclate BP50%/20%w/w
 Excipients.....q.s

DoxyKO-20/50 is indicated for the prevention and treatment of gastrointestinal and respiratory infections caused by microorganisms susceptible to doxycycline, such as Bordetella, Campylobacter, Chlamydia, E. coli, Haemophilus, Mycoplasma, Pasteurella, Rickettsia, Salmonella, Staphylococcus and Streptococcus spp. in calves, sheep, goats, pigs and poultry.

KoTrim Oral WSP

Each gm powder contains:

Trimethoprim BP.....80 mg
 Sulfadiazine BP.....420 mg

KoTrim Oral WSP is effective against primary and secondary bacterial infections caused by bacteria susceptible to trimethoprim and sulfadiazine, such as respiratory infections, intestinal infections, urogenital infections, skin infections, and coccidiosis in pigs, lambs, kids, calves, and poultry.

LevoMax PLUS

Each ml contains :

Levofloxacin Hemihydrate USP
 equivalent to Levofloxacin100 mg
 Bromhexine Hydrochloride......50 mg
 Approved colours.....
 Excipients.....q.s.

Highly effective against a wide range of bacterial species and can be used for the prevention, control and treatment of severe bacterial respiratory and mycoplasmic infections of poultry including CRD, CCRD, Infectious Coryza, Necrotic Enteritis, Colibacillosis, Salmonellosis, and Fowl Cholera.

LEVOMAX 10%

Each ml contains:

Levofloxacin Hemihydrate USP equivalent to
 Levofloxacin.....100 mg
 Approved colours.....
 Excipients.....q.s.

It is effective against both gram positive and gram negative bacteria, Mycoplasma and anaerobic organisms. Its wide spectrum of activity includes the pathogenic organisms like E. coli, Salmonella spp., Staphylococcus spp., Streptococcus spp., Klebsiella spp., Pseudomonas aeruginosa, Bordetella bronchiseptica, Mycoplasma spp., Clostridium perfringens and Campylobacter. Diseases produced by these organism in poultry can effectively be treated with Levofloxacin 10% Oral Liquid.

Aniflox 15%

Each ml contains:
Ofloxacin BP.....150 mg
Approved colors.
Excipients.....q.s.

Treatment of Poultry, Calves and lambs, Dogs & Cats suffering from septicemia, arthritis, polyarthritis, meningitis, mastitis, dermatitis, secondary infections in viral diseases and respiratory diseases (tonsillitis, tracheitis, pneumonia, bronchitis, rhinitis, sinusitis, bronchopneumonia), gastrointestinal tract (gastritis, enteritis, peritonitis), urogenital system (nephritis, pyelitis, pyelonephritis, urethritis, metritis, urosystyt) caused by microorganisms sensitive to ofloxacin.

FlorMAX 20%

COMPOSITION:
Each ml contains :
Florfenicol.....200 mg
Excipients.....q.s.

FlorMax is indicated for preventive and therapeutic treatment of gastrointestinal and respiratory tract infections, caused by florfenicol sensitive micro-organisms such as Actinobaccillus spp. Pasteurella spp. Salmonella spp. and Streptococcus spp. in swine and poultry. The presence of the disease in the herd should be established before preventive treatment. Medication should be initiated promptly when respiratory disease is diagnosed.

Tylomax-20 WSP

Each gram contains:
Tylosin Tartrate BP (Vet).....200 mg
Excipients.....q.s.

Tylomax-20 WSP is indicated in all conditions associated with bacteria sensitive to Tylosin. This includes organisms in the following genera : Streptococcus , Bacillus , Staphylococcus , Corynebacterium, Clostridium , Erysipelothrix, Spirochaetes, Fusiformis, Clamidia, Mycoplasma, Pasturella and Campylobacter.

ANTICOCCIDIAL

AmpKO 20 / 50

Each gram contains:
Amprolium Hydrochloride IP.....
20%/50% w/w
Excipients.....q.s.

For the treatment of parasitic infestations such as large strongyles in adults and small strongyles in infants. It is also effective in the treatment of lungworms, pinworms, ascarids, hairworms, neck threadworms, intestinal threadworms and stomach bots.

ANALGESIC & ANTIPYRETIC

ParaKO 30%

Each ml contains :
Paracetamol BP.....300 mg
Excipients.....q.s.

Use as an antipyretic drug against infectious and inflammatory diseases associated with hyperthermia, as well as against various pain .

ANTHELMINTICS

Ivercure 0.3%

Each ml contains:
Ivermectin BP.....3 mg
Benzyl Alcohol BP.....15 mg
(As preservative)
Propylene Glycol BP.....q.s.

For the treatment & control of the Internal & External parasites such as Gastrointestinal Roundworms (Adults & fourth stage larvae) , Lungworms (Adults & fourth stage larvae) , Grubs (parasitic stages) , Sucking Lice & Mites (scabies)

UNDER DEVELOPMENT
